

STATE OF THE ISLAND REPORT

FEDERATION OF PEI MUNICIPALITIES

What even is the State of the Island Report?

A background of the current economic, social, environmental, and cultural status the province.

That's a little broad, what won't it be?

It won't be a collection of raw data, and it won't be a policy document.

What will it do?

- Present data in an easily digestible way.
- Identify development trends.
- Support the modernization of Provincial planning on PEI.
- Allow for better informed discussions.

Next Steps

- Continue to collect data.
- Review State of the Island Report.
- Table on the floor of the Legislature and release to the public.
- Land Use Plan

Your Role

- Data holders and providers
- Stakeholders and subject matter experts

Thank you

Megan Williams, BCD, RPP, MCIP
